NutraVital Fly Block for Cats – Natural Protection against Parasites

Spray 150ml

Fly Block is a natural anti-parasite spray made purely from plants. It's ideal for pet owners who are looking for a natural and effective tick prevention strategy for their four-legged friends, as well as a general defence against parasites.

Fly Block offers reliable protection from parasite infection as it effectively repels ticks, mites and fleas. As a natural parasite defence developed by experts, this product contains a unique combination of different oils and other plant-based substances, which therefore increase its biological efficacy.

Description

NutraVital Fly Block for Cats

NutraVital Fly Block for Cats – Natural Protection against Parasites

Fly Block is a **natural anti-parasite spray made purely from plants**. It's ideal for pet owners who are looking for a **natural and effective tick prevention strategy** for their four-legged friends, as well as a **general defence against parasites**.

Fly Block offers reliable protection from parasite infection as it **effectively repels ticks, mites and fleas**. As a natural parasite defence developed by experts, this product contains a **unique combination** of different oils and other plant-based substances, which therefore increase its biological efficacy.

Fly Block contains:

- Vitamin B1 / Thiamin
- Manuka oil
- Geraniol
- Eugenol
- Linalool
- Citrus extract

Finally you can let your four-legged friend **sniff** freely around the bushes and bound over forests, fields and meadows.

You'll no longer be dependent on chemical products to protect against ticks!

Fly Block – natural protection against ticks and parasites which really works, for dogs, cats and horses.
